County of San Luis Obispo

TO: Board of Supervisors

FROM: Jeff Hamm, Health Agency Director
Anne Robin, Behavioral Health Administrator

DATE: 3/4/2014

SUBJECT: Request to approve a FY 2013-14 renewal contract (Clerk's File) with Paso Robles Joint Unified School District in an amount not to exceed \$67,033 under which the County will provide on-site support in addition to educationally related mental health services in the District's special education classes. District 1.

RECOMMENDATION

It is recommended that the Board approve and direct Chairperson to sign the FY 2013-14 renewal contract with Paso Robles Joint Unified School District (PRJUSD) in an amount not to exceed \$67,033 under which the County will provide on-site support in addition to educationally related mental health services in the District's special education classes.

DISCUSSION

Under Federal law, special education students who require educationally related mental health services in order to benefit from their education are entitled to receive mental health services as part of their right to a free appropriate public education.

Previously under California law, the local county mental health plans were mandated through Government Code 7570, also known as AB 3632, to provide educationally related mental health services. Effective October 8, 2010, responsibility to ensure special education students receive these services falls to local school districts and their local Special Education Local Planning Areas (SELPA), the State-designated regional entity responsible for overseeing and supporting the delivery of services to special education children. The County has a separate contract with San Luis Obispo SELPA, which your Board approved on July 16, 2013, to facilitate coordination and funding for all educationally related mental health services provided throughout all of San Luis Obispo County.

PRJUSD has requested that the County continue to provide educationally related mental health services for their special education students. The contract facilitates a team approach with school staff and County staff to provide support and coordination to serve each child's needs as identified on their Individualized Education Plan (IEP). Staff from County Behavioral Health and Family Care Network will provide individual therapy and rehabilitation, group and family therapy, case management and consultation services, and crisis intervention. Below is the team for the school district:

School	# County Mental Health Therapists	# Family Care Network Behavioral Specialists	# Classrooms Served	# Students Per Classroom	Total Students
Paso Robles Joint USD	2	4	4	10	40

The tardiness of this contract is due to PRJUSD budget constraints which lead to district administrative delays and, therefore, very late school board approval.

OTHER AGENCY INVOLVEMENT/IMPACT

County Counsel has reviewed and approved the contract as to form and legal effect.

FINANCIAL CONSIDERATIONS

The FY 2013-14 Approved Budget includes the costs associated with providing educationally related mental health services to children with an eligible IEP.

When the educationally related mental health services are provided, all appropriate payor sources, such as Medi-Cal, EPSDT, and other Special Education funding are submitted for reimbursement. SELPA pays the match component as required by Medi-Cal and any unreimbursed cost associated with the service.

Since PRJUSD is interested in having staff on-site the entire school day, the district will provide reimbursement to the County for any unreimbursed costs that were not provided by SELPA for educationally related mental health services. This would equate to any time staff or contractor was present but did not provide a specific mental health service that is billable to Medi-Cal or third party payor. Below is the potential reimbursement amount stipulated in the contract:

FY 2013-14 Contract Amount

School District	Potential Reimbursement Amount
PRJUSD	\$ 67,033

RESULTS

FY 2012-13 ED Services Provided

School District	# Children Served	# Medi-Cal / EPSDT Funded
PRJUSD	32	29

FY 2012-13 ED Measurable Outcomes

School District	% Children Avoiding Out of Home Placement	% Children Avoiding Suspension or Expulsion	% Children Avoiding Inpatient Psychiatric Hospitalization
PRJUSD	94%	66%	78%

The primary goal of the collaborative efforts is to help children remain in their homes and the community, while receiving the most appropriate education. The educationally related mental health services provided under these contracts with SELPA and the School Districts are part of a larger continuum of care that aims to improve the quality of life of those served. Providing the most appropriate services to the clients increases the probability of positive treatment outcomes. Furthermore, positive treatment outcomes contribute to the wider County vision of a healthy and safe community.
